

- ♥ Is your cat too aggressive?
- ♥ Does your cat eliminate outside of the box?
- ♥ Does she get bullied by other members of the family?
- ♥ Does he eat too much or too little?

Why is your feline acting out?

Your cat has conscious and subconscious reasons that **motivate** her behavior.

What if we could **clear** those thoughts and emotions that drive those behaviors?

Dr. Tina EnerJoy will refer you to a vet if there is an underlying physical problem that needs to be addressed

Let's bring the *purring* and snuggling back into your life!

Creating **purrlicious** relationships between felines and their families!

About us

I'm **Dr. Tina EnerJoy** (aka Tina Huang, Ph.D., your Holistic Healer for a Happy & Healthy Brain). My Ph.D. is in Neuroscience and I have 18 years of research experience in underlying causes of mental and cognitive disorders at esteemed research institutions.

I came to this work because throughout my life, I struggled with learning disabilities, depression and anxiety, and I couldn't find effective solutions using traditional methods.

It wasn't until I addressed the underlying causes using the Body Code, Emotion Code and Emotional Freedom Technique, (EFT) that I was able to let go of the things I didn't like about myself.

After decades of hopelessness, these techniques helped me to become the person I've always wanted to be. Because so many cats have **purred** their way into my heart, I help both humans and felines release barriers to being happy & healthy.

Successes

Examples of troublesome behaviors and symptoms that I have eliminated include:

- ♥ Frequent begging – stopped!
- ♥ Not allowing owner to cut nails – allowed!
- ♥ Weeks of nightly head-butting as owner tried to sleep – stopped!
- ♥ Hissing, growling and fighting with other cat – stopped!

- ♥ Meowing in the middle of the night – stopped!
- ♥ Overweight for years – returned to normal weight!
- ♥ Hardly eating and sleeping too much – back to normal!
- ♥ Litter box problems – solved!
- ♥ Being aloof, to being a social cuddle bug – Awww!
- ♥ Not trusting owner – now trusting!

"After 9 months of trying everything, we had 2 sessions with Dr. Tina. With her energy cleansing and training tips, Mitten and Nibbles have become friends again! We went from having them separated and in locked rooms due to all their fighting, to them napping together on the same pile of sheets! Thank you so much, Dr. Tina!"

- Gabriela from Seattle, WA
